

DMIT1530 In-class #6

Bootstrap Layout

2020 Fall Semester

Download the files provided by your instructor. You are tasked with adding the HTML and using Bootstrap CSS needed to create the provided layout (see screenshots).

Build Methodology:

1. Create a folder called bootstrap-lab, create an index.html file and add the necessary html5 starting code.
2. Go to getbootstrap.com, add in the css and js files hosted on a CDN to to be able to style your content using just bootstrap classes.
3. Add in the html content.
4. Using the documentation online at getbootstrap.com add in the classes to create the layout that matches all three screenshots: small, medium and large. Remember to style with a mobile-first approach: starting at the smallest screen.
5. Once you are finished, validate your html and submit a zip file of your code to Moodle.

Submission:

Upload a zip file to Moodle.

Late submission will not be accepted and receive a zero

Marking Key: In Class Assessments

Marks	Five Marks Criteria
5	Task was completed with the highest of proficiency adhering to best practices and followed subject matter guidelines all tasks were completed to a professional standard.
